Barbara Hill
Clean Power Now
P.O. Box 2717
569 Main Street
Suite 9
Hyannis, MA 02601

Dear Barbara,

I wanted to thank you and Clean Power Now for all of your efforts relating to the positive decision Cape Wind obtained at the Massachusetts Energy Facility Siting Board in their granting of the projects Certificate of Environmental Impact and Public Interest. This unprecedented decision, representing the last Massachusetts hurdle for Cape Wind, would not have been granted without the contribution Clean Power Now and its legal team made throughout the many months of hearings and written pleadings. Your attorneys Matt Pawa and Mark Reilly were brilliant and passionate in their advocacy for this critically needed certificate.

Time and again throughout this long battle, Clean Power Now has stepped up to ensure this region will move away from coal and oil power facilities and toward renewable energy projects. I want you to know that the Cape Wind team is honored to have earned your support and grateful that you are fighting with us for a more sustainable, energy, environmental and economic future.

Sincerely,

A handwritten signature in blue ink that reads 'Jim Gordon'. The signature is written in a cursive, flowing style.
